

Absorba Table Screen

MATERIAL

Core of Ecophon 20/40 mm. Framework in birch plywood 20/40x12 mm. The table clamp can be adjusted to size and mounting on the screen is flexible in height and side according to customer requirements. Take part in Decibel's color range, 405 variants of different finishes are offered as standard. Choose from all 195 RAL colors, alternatives are available both as solid finish (gloss 72) or Structure finish which has a matte, slightly textured elegant surface. In addition, 15 RAL colors with pearl finish. Black and white are standard. For all colours see www.decibelab.com

FABRIC

The fabrics we use for our sound absorbers are all carefully selected and tested according to the current standard used by manufacturers. The absorbent has removable fabric as standard. Prices on request for other fabrics.
